NEW YORK, April 8.-Fire early to-NEW YORK, April 8.—Fire early today destroyed the combined car barn and

a million and a half dollars. More than
309 cars were burned, and the plant, except for the electrical department, was
destroyed.

Jone Breman, Captain J. Ryan, was

cept for the electrical department, was destroyed.

One fireman, Captain J. Ryan, was killed under a falling wall, and half a dozen firemen and others were more or less seriously injured. None of the Injured is in a dangerous condition.

Fire started in the big repair-room, where a large number of cars were stored. Captain Ryan's engine, with his crew and the crews of two other engines, were working in an alley outside the building, when an explosion in the paint room, on the fourth floor, ripped out the west wall, sending tons of bricks down on the firemen, and burying half a dozen of them in the ruins.

A hundred men with picks and shovels at once set to work to dig their comrades out of the ruins. Captain Ryan was the first man taken from the heap of debris by the rescuers. He was horribly crushed, but still alive when taken out and laid on the ground in the driving rain. There a priest knelt by his side and administered the last sacraments of the church a moment before Ryan died. One by one the other firemen were dug out. In the meantime the fire in the barn had practically burned itself out, but not until the flat houses in the rear had been damaged to the extent of \$25,000.

"About three and a half years ago I had an attack of pneumonia, which left a memento in the shape of dyspepsia, or rather, to speak more correctly, neuralsia of the stomach. I happened to mention the matter to my grocer one day, and he suggested that I give Postum Food Coffee a trial.
